Projects

Personal Tomo Chatbot

Duration: (e.g., Feb 2025 – Apr 2025)

Technologies Used: Python, Gemini API, RESTful APIs

Description:

Created a chatbot integrated into my personal portfolio website to engage visitors and provide information interactively.

Key Contributions / Responsibilities:

- Developed the chatbot backend using Python to handle user inputs effectively.
- Integrated Gemini API for natural language processing to enhance conversation quality.
- Designed the chatbot to answer FAQs about my skills, projects, and contact information.
- Ensured smooth communication between the chatbot and the portfolio site via RESTful API calls.

Outcome / Impact:

Enhanced user interaction on my portfolio site and demonstrated practical application of chatbot technology.
